Bansko is situated in south west Bulgaria and is within a World Natural Heritage area. It is an all year resort with excellent skiing in winter and beautiful scenery in summer.

Our apartment is in Bansko within the four star Mountain Dream development. The complex has bar and restaurant facilities as well as a pool, hot tub/Jacuzzi, spa and fitness centre.

The skiing conditions in Bansko are excellent. The Pirin mountain has a predominantly Alpine character with three peaks above 2900 metres.

The well maintained ski slopes offer runs and tracks for all types of skiers from novice to the experts.

We are approximately 150 metres from the home run. The Gondola Ski Lift is just five minutes away and open all year.

Summer is the perfect time to explore Bansko and the foothills of the Pirin mountain.

Alpine meadows, rock climbing, pony trekking, fishing and mountain bike tracks are just a few reasons why Bansko makes an ideal base for your summer holiday.
